the myth

DELPHI

According to Greek mythology, Zeus wanted to locate the centre of the earth. He launched two eagles from the two ends of the world starting their journey simultaneously, flying at equal speed. The two eagles crossed their path at a single point. From that point Zeus threw a stone from the sky to see where it will fall, and the stone landed at Delphi Greece. Zeus declared Delphi as the centre of the world, the omphalos (navel) of the earth.
